MINOS mast antenna, 941 m along:
left 11.57 m, up 124.9 m (ND is 53 m downstream)
up
clock angle –111°: FD (dashed arc)
clock angle –107°: ND (solid arc)
NOvA ND (surveyed)
left 11.565 m, down 3.644 m
12.13 m off the axis at 994 m: 12.19 mrad
right (east of the line)
beam axis (target → MINOS FD)
ND and FD both lie to the left of and below the axis,
only 3° apart around it: the ND is on the line of sight to the FD
NOvA FD, Ash River (surveyed)
left 11,037 m, down 4,163 m
11,796 m off the axis at 810 km: 14.55 mrad
