
scale 1 m = 60 px · right = beam right (east) · angles are to the beam axis (target → MINOS FD), measured at the target
beam axis (target → MINOS FD)
crosses the face plane here, off the detector
4.016 m (158.125 in) square
top 11.746 mrad
13.748
9.750
14.132 mrad
10.285 mrad
12.194 mrad
centre (surveyed)
centre → axis: 11.565 m right, 3.644 m up = 12.125 m transverse,
12.194 mrad seen from the target, 994.35 m upstream
10 mrad
target → FD line of sight
crosses the face plane here:
1.98 m left, 1.46 m below the centre
14.785
bottom 12.944 mrad
11.165
